

## State Certified Backflow Testers

It is the backflow device owner's responsibility to ensure the testing is complete and that the vendor used is certified to perform backflow testing. The list of backflow prevention service providers is provided on an "as-is" basis for information purposes only. The reliability and accuracy of the material on this site cannot be assured, so please consult your local phone book or online services for up to date information about the backflow prevention service providers listed here and other such service providers in your area. Arizona Water does not recommend any backflow prevention service provider and does not warranty or guarantee IN ANY WAY any information, work, or services any backflow prevention service provider might provide to you. Arizona Water recommends that you thoroughly investigate any backflow prevention service provider you might wish to hire and make any decision to hire a backflow prevention provider based upon the results of your own investigation.
