

Engineer

Arizona Water Company, a private water utility serving customers throughout Arizona, is seeking an Engineer at our Phoenix corporate office. The Engineer position reports directly to the Manager of Engineering.

Arizona Water Company is the second largest investor-owned water utility in Arizona, with over 6,500 new customers added since the beginning of 2021 and more than 100,000 total customers. The company operates 24 water systems in 17 communities throughout the State. Arizona Water Company has been in business since 1955 and regularly has employees who remain with the company for more than thirty years.

Arizona Water Company offers an excellent wage and benefits package, including company paid life and medical insurance, dental and vision plans, and an excellent 401(k) plan with company match. Pay depends on experience and qualifications.

Responsible for a variety of tasks and duties, which may include, but would not be limited to, the following:

- Designs Company water systems.
- Prepares cost estimates.
- Engineer specifications of projects.
- Creates and updates work authorizations and contracts.
- Review engineering drawings for accuracy of design and dimensions.
- Conducts tests of materials and equipment.
- Creates and completes field surveys.
- Works with Division Managers, developers, and contractors to ensure that all water system construction conforms to Company specifications.
- Provides technical assistance and guidance to Division Managers.
- Performs other duties as assigned

Required skills, knowledge, and physical requirements:

- Must be proficient in all phases of engineering analysis and design.
- Must be able to interpret and write specifications and contract documents.
- Able to draw maps and plans.
- Effectively represent the Company with customers, government agencies, suppliers, and contractors
- Be capable of securing Arizona Professional Engineer's Certificate after obtaining required experience.
- Must have knowledge of surveying techniques.
- Drive to water system facilities.
- Must be able to inspect all construction sites.

Required education, training, and experience:

- Bachelor's degree in an engineering field.
- Able to obtain Arizona Professional Engineer's Certificate

ARIZONA WATER COMPANY

- Proficient in Microsoft Office, CAD designing.
- Must have AZ driver's license and acceptable driving record.
